Your say

Planning for Ashfield Park

Have your say on future use

Inner West Council is developing a new draft plan of management for Ashfield Park.

Ashfield Park is a valued open space used by the community for both active and passive recreation. Sporting clubs use it as a training ground, neighbours living nearby as their backyard and the residents look after the community garden.

We want to make sure that we are delivering the right facility for our community. Let us know how you use the park and how you would like to use in the future. Your feedback will guide the care and maintenance of the park for now and into the future.

This project is part of Council's \$65 million investment in park and aquatic facilities, the biggest investment in sports facilities in the history of the Inner West.

Please make sure you get online and have your say.

Darcy Byrne

Darcy Byrne, Mayor

INNER WEST

Planning for the future

Let's plan the future of your local park. Whether it's pottering in the community garden, picnic, walking your dog, playing soccer or cricket, Ashfield Park is a neighbourhood backyard to the local community. What works, what can be improved and what is missing?

Share your knowledge to help better balance competing needs for recreational space in the next 10 years.
