

Onsite community workshop Saturday 6 May, 2017

Issues and Opportunities received at engagement event

- Bins near the playground and picnic area smell - can there be more regular servicing?
- The landscaped area around the playground has play value including the bush care area. This should be incorporated more into the play space where possible.
- Can the bush care area path be linked to wrap around to take children on a journey from and back to the playground?
- More challenging equipment is required for children eight years and older
- The current equipment is much loved and should be retained or improved. Maybe a double slide so children can race each other.
- Love the cubby house! Kids use it to play shop and have lots of imaginary play in there.
- Making the playground accessible is very important.
- Car parking on the weekends when soccer is on is an issue for people with disabilities accessing the park. Can this be addressed?
- Can cars be slowed down as they approach the park from Hutchinson Street? Traffic calming required.
- Love the spider's web!
- Inclusive swing would be great!
- No bark! Keep the playground surfacing or upgrade what is there
- Nature play and more inclusive equipment would be great
