# ABOUT PLACE SCORE AND THIS RESEARCH

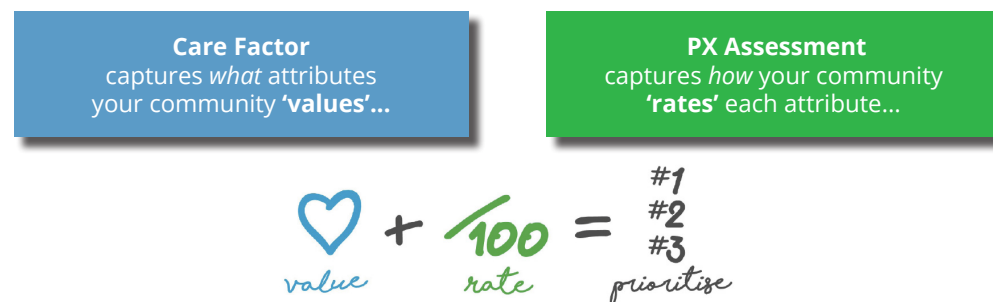

Place Score offers two sophisticated data collection tools, Care Factor and Place Experience (PX) Assessments. Like a 'place census', Care Factor captures what your community really values, while PX Assessments measure the community's lived experience.

Together they help you identify what is important, how a place is performing and what the focus of change should be. An attribute with a high Care Factor but a low PX Assessment should be a priority for investment.

There are many benefits in using Place Score for your project research:

- Community segmentation; geographic and demographic
- Insights that can be used for multiple projects over a number of years: strategic planning and implementation projects
- Quantitative data for evidence based planning to measure the impact of investment over time
- Identification of place attributes that the community all cares about as well as potential conflicts to minimise risk

## HOW THE PLACE SCORE SYSTEM WORKS:

A place attribute with a high Care Factor but a low PX Score should be prioritised.

## WHERE AND WHEN WAS THIS DATA COLLECTED?

Between 4 February and 6 March 2019 Place Score collected Neighbourhood Care Factor surveys and PX Assessments for the Inner West Council. This data is the basis for your Neighbourhood Community Insights Report.

Surveys were available in: English, Italian, Greek, Simplified Chinese, Spanish, and Vietnamese.

### NEIGHBOURHOOD CARE FACTOR SURVEY

Which place attributes are most important to you in your ideal neighbourhood?

- 1805 respondents, with 1701 being local residents
- Respondents were asked 'What is your small or big idea to make your neighbourhood a better place?'
- 1203 people shared their ideas.
- Online and face-to-face data was collected between 4 February and 6 March 2019.

### NEIGHBOURHOOD PX ASSESSMENTS

How is each place attribute impacting your personal enjoyment of your neighbourhood?

- 1091 local residents, workers and visitors completed a Neighbourhood PX Assessment
- Respondents were asked 'What's missing in your neighbourhood that would make it a better place to live?'
- 867 people shared their ideas.
- Online and face-to-face data was collected between 4 February and 6 March 2019.

**A total of 2,896 responses were collected during the research.**

# ABOUT PLACE SCORE AND THIS RESEARCH

## STRATEGIC PLANNING USING PLACE SCORE

Place Score provides a rigorous evidence base for decision making by providing four different data sets:

- 1. CARE FACTOR** - what your community thinks is most important in their 'ideal neighbourhood'. Like a 'place census' you can use this data to understand community values in a specific location or for a particular demographic group
- 2. PX ASSESSMENT** - how your community rates the liveability of their current neighbourhood. This measures performance and can be used as a baseline from which to compare the place after investment and over time.
- 3. PLACE PRIORITIES** - by aggregating the Care Factor and the PX Assessment data we can identify what place attributes people both care about and think are performing poorly (priorities), and those that are performing well (retain and protect).
- 4. OPEN ENDED QUESTIONS** - your community's ideas for changes that will make their lives better. This provides the opportunity to 'hear the voice of the community'.

Place Score has tailored the Neighbourhood Care Factor and PX Assessment reporting to reflect the requirements of the Greater Sydney Commission and Department of Planning. Place Score's standardised insights provides a "common language" across the LEP update process, assuring a clear line of sight from the District Plan to the Local Environmental Plan.

This report is designed to assimilate your community's inputs directly into each of the key areas of the LEP Update to help simplify Council's task:

- Local Strategic Planning Statement
- Local Character Statement
- LEP key themes (eg Residential)

## CONNECTING PLACE SCORE TO STRATEGIC PLANNING

The Care Factor and PX Assessment include 50 neighbourhood attributes. Because liveable neighbourhoods are a complex system of the both tangible and intangible, and the private and the public, not all Place Score attributes align directly with the LEP Update process. The following table summarises how Place Score has built the base structure for this report - by coding our attributes against the requirements set out in sample documents and guidelines.

PLAN	DIRECTION / THEME	PLACE SCORE ATTRIBUTES (TOTAL OF 50)	PLACE SCORE OPEN QUESTION ANALYSIS
Greater Sydney Commission Directions / Local Strategic Planning Statement	Liveability	28 attributes	Open question analysis (Built form, facilities, movement, economy, housing, character, public domain, community behaviours, social connections and safety, natural environment, development and change)
	Productivity	12 attributes	
	Sustainability	10 attributes	
Local Character Statement	Built form	5 Attributes	
	Land use	12 attributes	
	Place	24 attributes	
	Landscape	5 attributes	
Planning Tool Box	Movement	4 attributes	Planning Tool Box Open Question Analysis (Economy and centres, facilities, movement, public spaces, residential and built form, sustainability)
	Economy and centres	5 attributes	
	Facilities	5 attributes	
	Movement	4 attributes	
	Public spaces	7 attributes	
	Residential and built form	8 attributes	
	Sustainability	5 attributes	

### NOTES:

A response to the 'Infrastructure and Collaboration' directions from the Greater Sydney Commission's District Plan has not been included in this report as there was low levels of attribute alignment. Where a Place Score attribute could have been aligned with this direction there was also an overlap with the 'Productivity' direction. For the purpose of this report 'Productivity' was favoured as the more valuable direction for the community.

Local Character Statement categories are based on example reports for St Leonards & Crows Nest and Telopea provided by the NSW Department of Planning and Environment.<sup>1</sup>

Planning Tool Box themes are based upon Place Score attributes and Council preferences.

# HOW DO WE COLLECT AND USE THE DATA?

## PLACE SCORE COLLECTS THREE DIFFERENT DATA SOURCES:

DATA SOURCE	QUESTION ASKED
<b>CARE FACTOR (CF)</b>	<i>'Which place attributes are most important to you in your ideal neighbourhood?'</i> Respondents selected their 3 most important attributes in five categories to reveal what they value.
<b>PLACE EXPERIENCE ASSESSMENT (PX)</b>	<i>'How is each place attribute impacting your personal enjoyment of your neighbourhood?'</i> Respondents rated the performance of each attribute in five categories in relation to their neighbourhood.
<b>OPEN-ENDED QUESTION (OPENS)</b>	<i>'What is your big or small idea to make your neighbourhood better for you?'</i> and <i>'What's missing in your neighbourhood that would make it a better place to live?'</i> Respondents were given 25 words to express their ideas for each question, responses have been classified according to different themes by Place Score.

## THERE ARE THREE DIFFERENT WAYS THE DATA IS REPORTED:

1. Raw data (e.g. Care Factor top 10)
2. Combined Care Factor and PX data (e.g. Liveability priorities)
3. Raw and/or combined data coded against NSW Planning / Greater Sydney Commission (GSC) requirements or a specific topic (e.g. Local Character 'Place')

# PLANNING TOOL BOX

THE PLANNING TOOL BOX SECTION ALIGNS YOUR DATA AROUND THE FOLLOWING LAND-USE AND TRANSPORT PLANNING THEMES:

- ECONOMY AND CENTRES
- FACILITIES
- MOVEMENT
- PUBLIC SPACES
- RESIDENTIAL AND BUILT FORM
- SUSTAINABILITY

FOR EACH THEME THE TOOL BOX PROVIDES YOU WITH:  
LGA-WIDE DIRECTIONS

Key findings related to one planning theme across your LGA - trends across neighbourhoods and overall priorities.

## A HEAT MAP

Spatial representation of the neighbourhood requiring intervention related to a specific planning theme and a summary of the priorities for each neighbourhood.

## PRIORITIES, STRENGTHS AND COMMUNITY CONCERNS

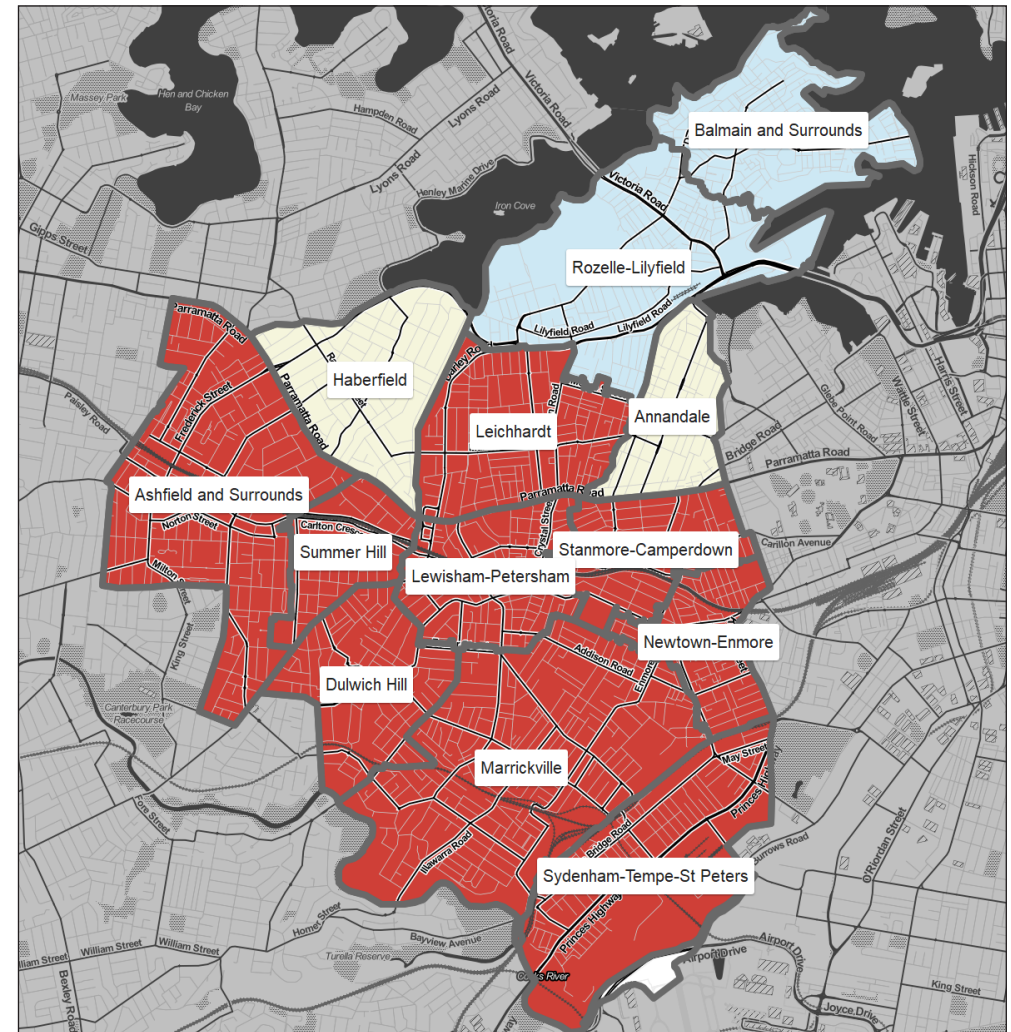

Priorities according to your community, what people consider to be their neighbourhood's strengths, and potential obstacles or reactions to change.

## COMMUNITY IDEAS FOR CHANGE

Your community's ideas for change have been recoded to focus solely on themes related to the elaboration of an planning theme - providing you with data that might not come up in other sections of this report.

### LEGEND

- Multiple High Priorities
- Public Spaces Priority
- No High Priority
- Data not collected for these areas

The map above illustrates neighbourhoods that have more than one 'high priority' within a theme. Consult each theme, e.g. 'facilities', to see a full breakdown of the priorities for each area.

## HOW TO READ YOUR RESULTS

The planning tool box highlights what you should retain and protect as well as the level of investment needed to improve different aspects of liveability. The core principle is that you should invest in improving attributes with a high Care Factor ranking and a low PX Score as, once improved, they will have the most significant impact on liveability. This table identifies how to read the different level of priority presented in the following pages:

RETAIN AND PROTECT		CF RANK /50	PX SCORE /100
<b>Protect</b>	<b>These attributes currently contribute the most to the liveability of your neighbourhoods.</b> <i>These attributes have a high Care Factor Ranking (valued by the most people in your community) and have a high PX Score (performing well)</i>	Rank 1-15	≥70
INVESTMENT PRIORITY		CF RANK /50	PX SCORE /100
<b>High</b>	<b>Investing in these attributes will contribute the most to improve the liveability of your neighbourhoods.</b> <i>These attributes have a high Care Factor Ranking (valued by the most people in your community) and have low PX Score (NOT performing well)</i>	Rank 1-15	<70
<b>Medium</b>	<b>Investing in these attributes will contribute to improve the liveability of your neighbourhoods.</b> <i>These attributes are generally in the top half of the Care Factor rankings and have a low PX Score (NOT performing well)</i>	Rank 16-30	<70
<b>Low</b>	<b>Investing in these attributes will slightly contribute to improve the liveability of your neighbourhoods.</b> <i>These attributes are generally in the bottom half of the Care Factor Ranking (selected by the least number of people in your community) and have a low PX Score (NOT performing well)</i>	Rank 31-50	<70
<b>No</b>	<b>No additional investment is needed for these attributes as they are currently over-performing.</b> <i>These attributes have a low Care Factor Ranking (selected by the least number people in your community) and have a high PX Score (performing well)</i>	Rank 16-50	≥70

## ECONOMY AND CENTRES DIRECTIONS:

THE LOCAL ECONOMY AND CENTRES ARE CONTRIBUTING POSITIVELY TO THE LIVEABILITY OF MOST NEIGHBOURHOODS - ALTHOUGH THE NIGHT TIME ECONOMY COULD BE IMPROVED IN SOME AREAS

However, the communities of both Sydenham-Tempe-St Peters and Lewisham-Petersham would value improvements in their centres.

### WHAT DO WE ALL CARE ABOUT?

There are five economy and centres attributes out of which four are in your top 30 Care Factors:

- #2/50 Access to neighbourhood amenities
- #3/50 Local businesses that provide for daily needs
- #6/50 Things to do in the evening
- #15/50 Locally owned and operated businesses.

NEIGHBOURHOOD AMENITIES AND 'EVERYDAY' BUSINESSES ARE CONTRIBUTING POSITIVELY TO LIVEABILITY AND SHOULD BE PROTECTED

- 'Access to neighbourhood amenities (cafes, shops, health and wellness services etc.)' is contributing highly to liveability in every neighbourhood but Sydenham-Tempe-St Peters.

- Investing in neighbourhood amenities in Sydenham-Tempe-St Peters would highly improve the neighbourhood's liveability.

- Investing in 'Local businesses that provide for daily needs (grocery stores, pharmacy, banks etc.)' is a high priority in Sydenham-Tempe-St Peters and Lewisham-Petersham.

### YOUR BEST PERFORMING ATTRIBUTE:

82/100

'Access to neighbourhood amenities (cafes, shops, health and wellness services etc.)'

INVESTMENTS IN THINGS TO DO IN THE EVENING WOULD CONTRIBUTE SIGNIFICANTLY TO LIVEABILITY IN MULTIPLE NEIGHBOURHOODS

- 'Things to do in the evening (bars, dining, cinema, live music etc.)' is a high investment priority in Annandale, Dulwich Hill, Lewisham-Petersham and Sydenham-Tempe-St Peters.

- It is also medium investment priority in Ashfield and Surrounds and Haberfield.

- It is contributing highly to liveability (and should be protected) in Balmain and Surrounds, Leichhardt, Marrickville, Newtown-Enmore, Rozelle-Lilyfield, Stanmore-Camperdown and Summer Hill.

### THERE IS ROOM FOR IMPROVEMENT REGARDING:

68/100

'Things to do in the evening (bars, dining, cinema, live music etc.)'

LOCAL EMPLOYMENT OPPORTUNITIES ARE A LOW PRIORITY FOR YOUR COMMUNITY

- 'Local employment opportunities (within easy commute)' is performing poorly (62/100) but has a low Care Factor rank of #47/50.

- Improving local employment is a low investment priority in most of your LGA.

- No additional investments in local employment opportunities are needed in Newtown-Enmore.

### YOUR WORST PERFORMING ATTRIBUTE:

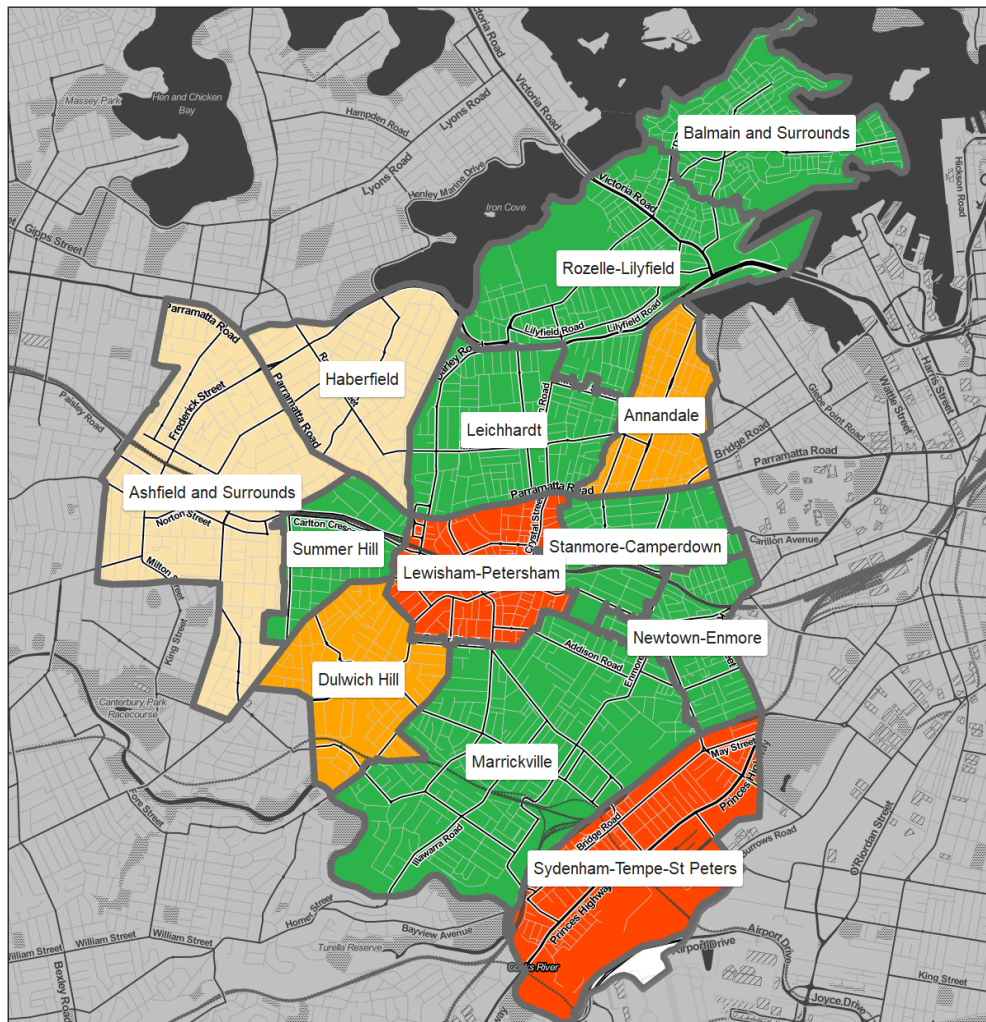

62/100

'Local employment opportunities (within easy commute)'

# PLANNING TOOL BOX: FACILITIES

## FACILITIES DIRECTIONS:

OVERALL, IMPROVING FACILITIES IS A LOW PRIORITY FOR YOUR COMMUNITY

However, the communities of *Ashfield and Surrounds, Haberfield, Lewisham-Petersham and Sydenham-Tempe-St Peters* would value improvements regarding the accessibility of shared community and commercial assets.

Additional places to play would be appreciated in *Summer Hill and Sydenham-Tempe-St Peters*.

SHARED COMMUNITY AND COMMERCIAL ASSET ACCESSIBILITY IS PERFORMING WELL IN MOST OF THE SURVEYED NEIGHBOURHOODS

- 'Access to shared community and commercial assets (library, bike/car share, sport facilities/gyms etc.)' is over-performing in *Annadale, Balmain and Surrounds, Dulwich Hill, Lechhardt, Marrickville, Newtown-Enmore, Rozelle-Lilyfield and Stanmore-Camperdown*.

- It is a high investment priority in *Ashfield and Surrounds*.

- You should also consider investing in shared community and commercial assets in *Haberfield, Lewisham-Petersham and Sydenham-Tempe-St Peters*.

INVESTMENTS IN SPACES TO PLAY IS MOST NEEDED IN *SUMMER HILL AND SYDENHAM-TEMPE-ST PETERS*

- 'Spaces suitable for play (from toddlers to teens)' is a medium investment priority in *Summer Hill and Sydenham-Tempe-St Peter*.

- It is a low investment priority for most other neighbourhood, with the exception of *Annadale, Haberfield and Stanmore-Camperdown* where no additional investments are needed.

- It is performing the poorest in *Ashfield and Surrounds* with a score of 59/100.

FAMILY, COMMUNITY, CHILD AND EDUCATION FACILITIES ARE A LOW INVESTMENT PRIORITY DUE TO LOW CARE FACTOR RANKINGS

- 'Family and community services (aged, disability and home care, protection and support services etc.)' is performing poorly (59/100) but has a low Care Factor rank of #43/50.

- 'Child services (child care, early learning, after school care, medical etc.)' is performing poorly (61/100) but has a low Care Factor rank of #49/50.

# PLANNING TOOL BOX: MOVEMENT

## MOVEMENT DIRECTIONS:

YOUR NEIGHBOURHOODS ARE WELL CONNECTED TO DIFFERENT COMMERCIAL AND EMPLOYMENT CENTRES. HOWEVER, IMPROVING ACTIVE AND PUBLIC TRANSPORT WOULD HIGHLY CONTRIBUTE TO THE LIVEABILITY OF MANY NEIGHBOURHOODS

**Note that improving the ease of driving and parking is a low priority across your LGA.**

THE PROXIMITY AND EASE OF ACCESS OF OTHER NEIGHBOURHOODS, SHOPS OR EMPLOYMENT CENTRES IS CONTRIBUTING POSITIVELY TO LIVEABILITY AND SHOULD BE PROTECTED

- 'Connectivity (proximity to other neighbourhoods, employment centres, shops etc.)' is contributing highly to liveability in the majority of your neighbourhoods.
- No additional investments are needed in Annandale, Balmain and Surrounds, Haberfield and Marrickville.
- It is best performing in Newtown-Enmore, where it was scored 88/100.

EASY AND SAFE ACTIVE AND PUBLIC TRANSPORT ARE YOUR HIGHEST INVESTMENT PRIORITY

- Investments in 'Access and safety of walking, cycling and/or public transport (signage, paths, lighting etc.)' will contribute highly to liveability in Ashfield and Surrounds, Haberfield, Leichhardt, Lewisham-Petersham, Newtown-Enmore, Stanmore-Camperdown and Sydenham-Tempe-St Peters.
- Investments in 'Walking/jogging/bike paths that connect housing to communal amenity (shops, parks etc.)' will highly contribute to liveability in Ashfield and Surrounds, Dullwich Hill, Lewisham-Petersham, Newtown-Enmore, Stanmore-Camperdown and Sydenham-Tempe-St Peters.
- Both attributes should be protected in other neighbourhoods.

IMPROVING CAR ACCESSIBILITY AND PARKING IS YOUR COMMUNITY'S LAST MOVEMENT PRIORITY

- 'Ease of driving and parking' is performing poorly (53/100) but has a low Care Factor rank of #38/50.
- Improving the ease of driving is a low investment priority across your LGA.

### WHAT DO WE ALL CARE ABOUT?

There are four movement attributes out of which three are in your top 30 Care Factors:

# PLANNING TOOL BOX: PUBLIC SPACES

## PUBLIC SPACES DIRECTIONS:

THE QUALITY AND CONDITION OF PUBLIC SPACES SHOULD BE YOUR TOP PRIORITY - WHILE THE AMOUNT OF PUBLIC SPACE AND PHYSICAL COMFORT COULD BE IMPROVED IN SOME NEIGHBOURHOODS

With a few exceptions the amount of places to sit or dedicated to community activities or special interests, is performing well and should not be a priority.

### WHAT DO WE ALL CARE ABOUT?

There are seven public spaces attributes out of which four are in your top 30 Care Factors:

- #1/50 General condition of public open space
- #7/50 Quality of public space
- #17/50 Amount of public space
- #20/50 Spaces suitable for specific activities or special interests

PLACES TO SIT OR DEDICATED TO COMMUNITY ACTIVITIES OR SPECIAL INTERESTS ARE GENERALLY PERFORMING WELL BUT COULD BE IMPROVED IN SOME NEIGHBOURHOODS

- Investments in 'Spaces suitable for specific activities or special interests (entertainment, exercise, dog park, BBQs etc.)' would improve liveability in Ashfield and Surrounds and Summer Hill.

- Investments in 'Spaces for group or community activities and/or gatherings (sports, picnics, performances etc.)' would improve liveability in Ashfield and Surrounds.

- Investments in 'Free places to sit comfortably by yourself or in small groups' would improve liveability in Haberfield and Sydenham-Tempe-St Peters.

### YOUR BEST PERFORMING ATTRIBUTE:

75/100

'Spaces suitable for specific activities or special interests (entertainment, exercise, dog park, BBQs etc.)'

IMPROVING THE QUALITY AND MAINTENANCE OF PUBLIC SPACES IS A HIGH PRIORITY IN MOST NEIGHBOURHOODS

- Investments in the 'Quality of public space (footpaths, verges, parks etc.)' will contribute highly to liveability in every neighbourhood but Annandale and Haberfield.

- Investments in the 'General condition of public open space (street trees, footpaths, parks etc.)' will contribute highly to liveability in every neighbourhood but Annandale

- Both attributes are performing well and should be protected in Annandale.

### THERE IS ROOM FOR IMPROVEMENT REGARDING:

63/100

'General condition of public open space (street trees, footpaths, parks etc.)'

IMPROVING THE AMOUNT OF PUBLIC SPACES AND PHYSICAL COMFORT WOULD IMPROVE LIVEABILITY IN SOME AREAS

- Improving the 'Amount of public space (footpaths, verges, parks etc.)' is a high priority in Marrickville and Summer Hill, and a medium priority in Ashfield and Surrounds, Lewisham-Petersham, Newtown-Enmore and Sydenham-Tempe-St Peters.

- Improving 'Physical comfort (including noise, smells, temperature etc.)' is a medium priority in Ashfield and Surrounds, Rozelle-Lilyfield, Summer Hill and Sydenham-Tempe-St Peters.

- Overall, physical comfort is performing poorly (62/100) but has a low Care Factor rank of #32/50.

### YOUR WORST PERFORMING ATTRIBUTE:

## RESIDENTIAL AND BUILT FORM DIRECTIONS:

INCREASING THE RANGE OF HOUSING TYPES AND SIZES IS NOT A TOP PRIORITY FOR YOUR COMMUNITY - BUT PUBLIC INVESTMENTS IN THE BUILT FORM WOULD IMPROVE LIVEABILITY ACROSS YOUR LGA

**Improvement regarding the quality of buildings would be appreciated in Dulwich Hill and Leichhard.**

THE DIVERSITY OF HOUSING TYPES IS OVER-PERFORMING EVERYWHERE BUT IN ASHFIELD AND SURROUNDS AND MARRICKVILLE

- Investments in the 'Range of housing types and sizes (houses, terraces, flats; number of bedrooms etc.)' would slightly improve liveability in Ashfield and Surrounds and Marrickville.
- No additional investments are needed in every other neighbourhood.

IMPROVING THE PERCEPTION OF PUBLIC INVESTMENTS WOULD IMPROVE LIVEABILITY ACROSS YOUR LGA

- Investments in 'Evidence of recent public investment (roads, parks, schools etc.)' is a medium priority in every neighbourhood except Sydenham-Tempe-St Peters.
- While it is performing the poorest in Sydenham-Tempe-St Peters (42/100), fewer people selected it as being important to them, making it a low priority for the area.

INVESTMENTS IN HOUSING PRICES AND TENURES WOULD HAVE A SMALL IMPACT ON LIVEABILITY ACROSS YOUR LGA

- Investments in the 'Range of housing prices and tenures (low to high \$, buy or rent etc.)' is a low priority across your LGA.
- Overall, housing prices and tenures is performing poorly (51/100) but has a low Care Factor rank of #45/50.

# PLANNING TOOL BOX: SUSTAINABILITY

## SUSTAINABILITY DIRECTIONS:

INVESTING IN NATURAL ELEMENTS, SUSTAINABLE ACTIONS AND THE PROTECTION OF THE ENVIRONMENT IS A HIGH PRIORITY FOR YOUR COMMUNITY AND WOULD GREATLY CONTRIBUTE TO LIVEABILITY ACROSS YOUR LGA

However, people living in Annandale, Balmain and Surrounds, Haberfield and Rozelle-Lilyfield do not perceive a need for additional investments regarding landscaping and the natural environment.

### WHAT DO WE ALL CARE ABOUT?

All five sustainability attributes are in your top 30 Care Factors:

- #5/50 Elements of natural environment
- #9/50 Landscaping and natural elements
- #11/50 Protection of the natural environment
- #15/50 Sustainable behaviours in the community
- #20/50 Sustainable urban design

INVESTING IN LANDSCAPING AND THE NATURAL ENVIRONMENT IS A HIGH PRIORITY FOR MOST OF YOUR NEIGHBOURHOODS

- Investments in the 'Landscaping and natural elements (street trees, planting, water features etc.)' would highly improve liveability in Ashfield and Surrounds, Dulwich Hill, Leichhardt, Marrickville, Newtown-Enmore, Stanmore-Camperdown, Summer Hill and Sydenham-Tempe-St Peters.

- Investments in the 'Elements of natural environment (natural features, views, vegetation, topography, water, wildlife etc.)' would highly improve liveability in Ashfield and Surrounds, Dulwich Hill, Leichhardt, Marrickville, Lewisham-Petersham, Stanmore-Camperdown and Sydenham-Tempe-St Peters.

### YOUR BEST PERFORMING ATTRIBUTE:

67/100

'Landscaping and natural elements (street trees, planting, water features etc.)'

INVESTING IN THE PROTECTION OF THE ENVIRONMENT AND SUSTAINABLE BEHAVIOURS WOULD IMPROVE LIVEABILITY IN EVERY NEIGHBOURHOOD

- Investing in the 'Protection of the natural environment' is a high priority in most of your neighbourhoods, and is a medium priority in Balmain and Surrounds, Leichhardt and Stanmore-Camperdown.

- Investing in 'Sustainable behaviours in the community (water management, solar panels, recycling etc.)' is a high priority in Ashfield and Surrounds, Dulwich Hill, Lewisham-Petersham and Marrickville.

- It is also a medium investment priority in Balmain and Surrounds, Haberfield, Leichhardt, Newtown-Enmore, Rozelle-Lilyfield, Stanmore-Camperdown, Summer Hill and Sydenham-Tempe-St Peters.

### THERE IS ROOM FOR IMPROVEMENT REGARDING:

59/100

'Protection of the natural environment'

INVESTMENTS IN SUSTAINABLE URBAN DESIGN WOULD CONTRIBUTE TO LIVEABILITY IN ALL OF YOUR NEIGHBOURHOODS

- Investing in 'Sustainable urban design (water sensitive design, transport-oriented design, sustainable building design, density etc.)' is a high priority in Ashfield and Surrounds and Sydenham-Tempe-St Peters.

- It is a medium investment priority in every other neighbourhood with the exception of Annandale where it is a low investment priority.

### YOUR WORST PERFORMING ATTRIBUTE:
