## New Lane Hire Fee at Aquatic Facilities

### Background

New fee categories are proposed for lane hire within the Inner West Council Aquatics Facilities for approved Aquatics Sporting Clubs to be applied from November 2019.

Approved Aquatics Sporting Clubs are defined as not for profit community based sporting organisations providing ongoing aquatics sporting activities that enhance community wellbeing for all age groups.

Lane Hire would be subject to availability of the amenities and lanes within the Aquatic Centres as determined by Aquatics Centre Management. Aquatics Sporting Clubs would be required to register each year and provide all appropriate documentation as requested which may include:

- Registration with swimming, water polo or other sporting bodies as appropriate.
- Completion of an annual hire agreement and acceptance of associated terms and conditions.
- Insurance provision as required and outlined in the hire agreement.
- Declarations of compliance with all appropriate governing bodies associated with their sport such as swimming or water polo NSW.
- Annual Child Safety overview by their responsible officer/s declaring how this process is managed within their organisation. This may include reference to working with children checks of officers and volunteers and adherence to standards as required by their governing bodies in relation to the supervision of children.

### Proposed new fees

The proposed new lane fees for approved Aquatic Sporting Clubs in Aquatic Facilities for 2019/20 will be applied from 1 November 2019 and are as follows:

- 50m lane hire - \$5 per hour, per lane; and
- Where lane is less than 50m, lane hire of \$2.50 per hour, per lane.

The proposed lane hire fees supersede previous fees, waivers and practises by Inner West Council and former Councils.

Council staff have contacted the Aquatic Sporting Clubs to advise of this report and recommendations for new fees.
