

Have your say on community facilities in Haberfield

A message from Inner West Mayor Darcy Byrne

Inner West Council has successfully fought to receive \$2.5million from the Sydney Motorway Corporation to upgrade community facilities in Haberfield.

We want to make sure that the investment of these funds helps to boost Haberfield's main streets and economy by bringing people into the area.

Council wants to hear from you to make sure that these funds will help us to meet the current and future needs of local community facility users and residents.

Please share your thoughts with us on what you love about Haberfield, how you use the current facilities and what improvements you would like to see.

Current community facilities

Council owns two major community facilities in Haberfield town centre.

Council is planning to invest the \$2.5million in a first class upgrade and we would like your input.

Mervyn Fletcher Hall

Originally the Baby Health Centre and Committee Room built in 1952; the centre was renamed in 1954 after Dr W Mervyn Fletcher to commemorate his service to the local community. The Hall is a meeting place for celebrations, exercise, music, dance, meetings and many other activities.

Haberfield Centre including Library

Built in 1912 as the School of Arts, it was the first public building in Haberfield. The centre is a much loved facility providing a variety of programs, services, resources and activity rooms to the community, as well as a local library.
