

Proposed Heritage Conservation Area

HCA 37 – Lackey Street and Simpson Park, St Peters, 2044

Background Information

- Following European settlement, the area of St Peters, Tempe and South Newtown was scattered with land grants in the 1790's;
- In the 19th century, St Peters had become a prosperous suburb in the light of the brickmaking boom and the call for industry led to a surge in development;
- The St Peters brickyards steadily declined during the 1880's and 1890's with most trade in the St Peters area ending completely by the 1930's;
- The land grant at 19-53 Lackey Street sit upon what was once a 30 acre grant of land made by Governor Phillip to David Chambers on 14 March 1795;
- It formed the triangular portion of land at the very northern tip of St Peters (then called 'Brompton'). It was bounded by May Street to the west, Princes Highway to the east and Campbell Street to the south;

Statement of Significance

- The plan was named 'The Brompton Estate' and was classified as a subdivision of Newtown, however it is important to note that it remained firmly within the municipal boundaries of St Peters (and is still known as St Peters today);
- The row of terraces at 19-53 Lackey Street are stylistically identical and were therefore likely to have been built as a row by a single builder;
- Simpson Park was created out of this move by St Peters Municipal Council as an attempt to beautify and add community use to the area in response to the local campaigning in the early 1920s by the St Peters community for parklands and open space.

Management Recommendations

- A Heritage Impact Statement is required by Council to accompany any Development Application for non-minor work to buildings within the area;
- Further subdivision of the lots is discouraged;
- The overall form of the buildings from 19-53 Lackey Street including period materials and finishes should be retained and conserved;
- Any development forward of the building line such as solid fences, high walls or car parking structures is strongly discouraged for existing properties
