Petersham 2049

After years of delay due to WestConnex construction the NSW Government has finally handed Camdenville Park back to our community.

Council is now ready to deliver the upgrade to the park that we have long planned for.

Improvements will include a new shared path, new pedestrian circuit and link paths as well as a BMX pump track.

Please let us know what you think about the proposed design.

Darcy Byrne, Mayor

Camdenville Park upgrade

INNER WEST

Latest design February 2023

Background

In 2015/16 we engaged the community on a design for the eastern part of Camdenville Park including the sports field and a new playground.

The upgrade was put on hold while part of the site was leased by the State Government for WestConnex purposes.

What's happening now?

The site has been handed back to Council and we're ready to deliver the existing design with a few fantastic updates included in the adopted master plan:

1. sports field upgrade including new irrigation, turf, lighting, and warm up area
2. new shared path (walking and cycling)
3. new pedestrian circuit and link paths

4. BMX pump track
5. little kids pump track
6. new central play space
7. upgraded corner space
8. 'Peter Bulger Wetlands' investigation
9. possible future parking
10. amenities building renewal
11. water harvesting tank and rain garden
